

SCOTTISH BEEKEEPER MAGAZINE

ARTICLE GUIDE

Types of Content

- We would be delighted to receive as many different topics of content as possible, with a view to covering all stages of beekeeping, honeybee and bee related topics. Some examples could be: Member and Local Association news/experiences/events/questions, practical tips & guides, scientific information/studies, historical notes, fun or practical pictures, recipes, book reviews, quizzes, guides and guidance, letters to the editor.... whatever you think may appeal to a reader.

Article Formats

- For content, this can be a Word document, a PDF file, or simply content in an email, letter or social media message.
- For images, please send as high resolution as you can, a minimum of 300 dpi, especially if they are for the front cover. These can be either JPEG, PNG, GIF, TIFF or PDF file formats.

Word Count & Article Length

- The publication is A5 size, portrait, double column, so for 1 page full of text work on 550 words per page
- If there are images to be inserted into the article, reduce the word count by approximately 70 words per image
- We will gladly receive any length of article or content; from one off pictures, half page articles to 4-5 page long articles. For anything longer than 5 pages we would split the article across a couple of editions of the magazine.
- For adverts, please contact the Editor for the size guides

Deadlines for Content

- Generally, work to have content submitted by around the 10th of the month prior to issue e.g., for April's magazine the content deadline is the 10th of March
- You can find the actual deadline for the next issue inside the magazine alongside the Index
