## Recommended Reading & Information Sources when studying for the SBA Examinations.

It is not intended that students read or even access all of these texts. Only some parts of books may be relevant to any given exam – use the syllabuses as a guide to which books should be used. All of these books are available in the SBA Moir Library. The Library Officer regularly sends books to local associations.

The Microscopy, Plants & Pollinators Module & Honey Judge syllabuses contain their own reading lists.
